1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE CLAIMS:

In claim 183, line 4, "--side--" has been inserted before "wall".

In claim 184, line 4, "--side--" has been inserted before "wall".

In claim 187, line 1, "166" has been changed to --171--; on line 2, "said fitting portion" has been changed to --a fitting portion-- and "toner outlet" has been changed to --mouth--.

In claim 188, line 1, "166" has been changed to --187--; on line 2, "toner outlet" has been changed to --mouth--; on line 3, "toner outlet" has been changed to --mating portion--.

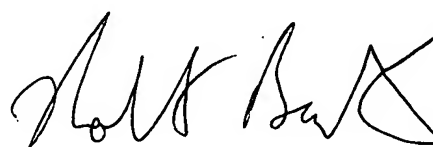

2. Regarding the changes in claims 187 and 188, the toner outlet having the air inlet portion 18 surrounding it (see Fig. 3B), is part of the nozzle assembly and not part of the toner container. As seen in Figs 16-1, 16-2, 16-3, and 17, a fitting portion B of the toner container 2 is part of the mouth of the container and is fitted with a mating portion A. The flange E is located between the fitting portion B and the mating portion A. If applicant has a more desired way of amending claims 187, 188, the examiner will consider this amendment generously.
